COMPANY PROFILE

Established in year 2017, CZONE today has become a reliable name in rubber industry. The leading manufacturer, wholesaler and supplier has carved its own niche in the industry by delivering **Automotive Extruded EPDM Rubber profile & Beadings, Gaskets, Industrial Moulded Rubber Parts, Conveyor Belts** etc.

DIRECTOR'S MESSAGE

I am proud to introduce you to best-in-class products suited to diverse industries. Driven by values, ethics and transparency, I believe in complete customer satisfaction through quality and value-adding products and services.

Pradeep Tayal, Founder & Director

PRODUCT PORTFOLIO

EPDM, SILICON, NATURAL RUBBER

ARCHITECTURAL PROFILES (UPVC DOORS & WINDOWS)

For compact grip of glass panes within the aluminum and **UPVC Doors & Windows** frames in new age building construction, the sealing profiles keep out dust, wind and water entirely. Long exposure to harsh climatic conditions has no impact on it and remains just as intact.

AUTOMOBILE PROFILES

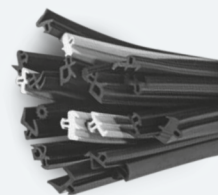

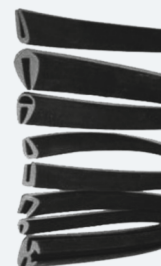

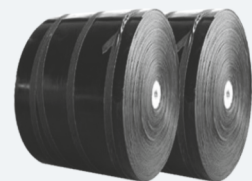

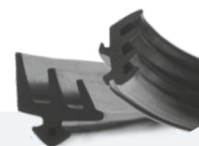

Ensure airtight sealing of every nook and cranny of the Automobile (Bus or smaller vehicles) exterior and interior design profile. The EPDM Rubber profiles are very resistant to ambient temperatures, extreme climatic conditions and vibrations.

CONVEYOR BELT

Made using the material rubber, conveyor belts help transport bulk material which in turn, helps save cost and time. The conveyor belts make happen spillage-free transportation possible in various industries. The rapid transformation of bulk material makes conveyor belts efficient labor saving process.

CRUSHER RUBBER BEADING

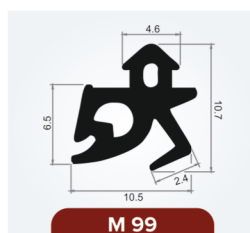

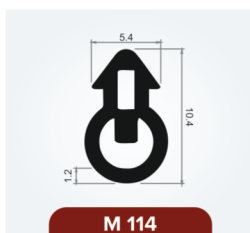

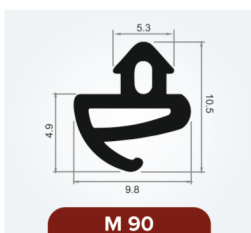

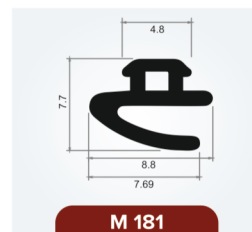

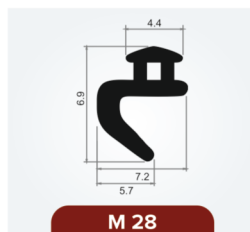

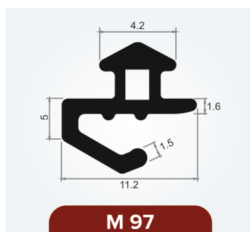

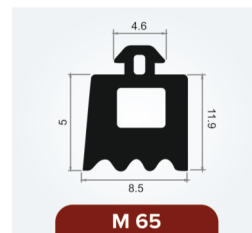

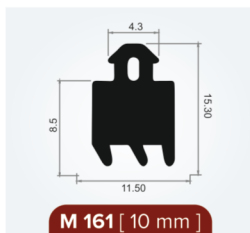

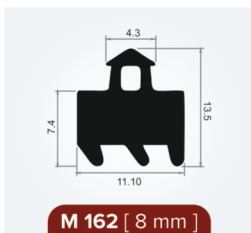

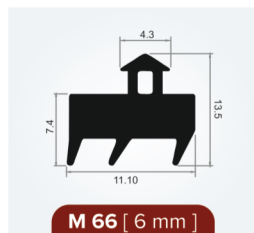

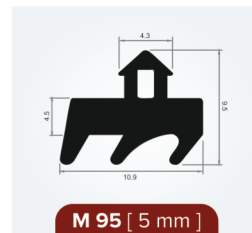

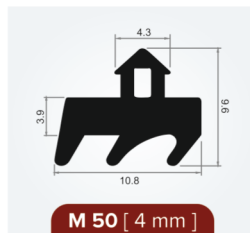

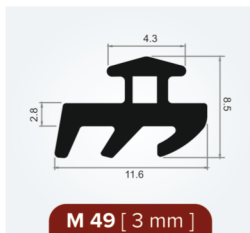

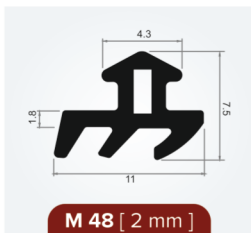

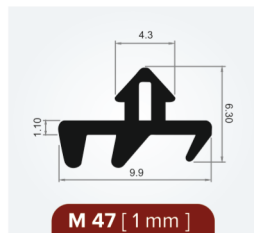

Widely used in construction and mining industries, crusher rubber beading help prevent the crusher screens from vibrations and the shocks occurring during operations. With high compatibility and high load bearing strength, crusher rubber beading also has the potency to withstand extreme temperatures.

UPVC GASKETS

CZONE RUBBER PRODUCTS

has the technology to develop all types of profiles.

ADVANTAGES OF CZONE EPDM RUBBER GASKETS

- Known for its outstanding resistance to weathering.
- Withstand UV radiation, ozone, and wide range of temperature.
- Excellent sealing properties helping minimizing outside noise and dust.
- Backed by cutting-edge technology.
- Manufactured in accordance with highest standards of quality.
- Material sourced from trusted vendors.

- Great Grip
- Highly Flexible
- High Compressibility
- Durable & Resistant
- No Fading Of Color

EPDM profiles that withstand all climatic conditions

- Recyclable
- Cost and Performance
- Design Flexibility
- Weight Reduction
- Wide service temperature range
- Ease of Processing

- High Durability
 - Rust Proof
- Superior Quality
- Excellent Tolerances to Harsh Weather
 - Perfect sealing with glass, Window or door frames

*Ultimate solution
for industrial &
commercial needs*

where quality comes with integrity

MISSION

Our mission is to gratifying our prestigious patrons by constantly delivering unmatched quality products that fit their needs and budget. We believe in transparent work policy and are strongly committed to be a trustworthy name in the industry through constant improvement in quality and performance.

VISION

Our vision is to achieve optimum customer satisfaction by adding supreme value to their needs and demands. We always want to be known as a company that our customers trust without giving a second thought. We want our impeccable product range to create a kind of impact that brings us more and more happy clients.
